

The Silent Epidemic

Uniting to Reduce Infant Mortality

Joint Commission on Health Care
Healthy Living and Health Services Subcommittee

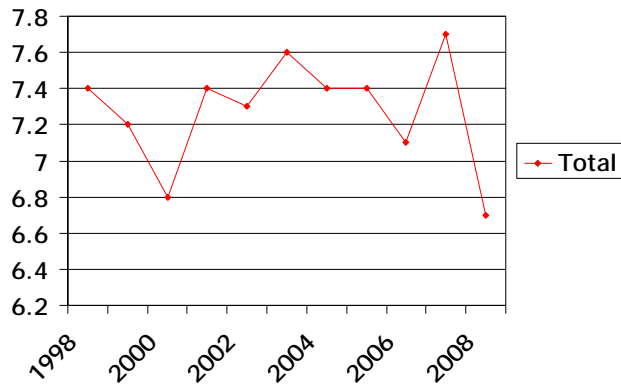

August 12, 2009

Infant Mortality: The Problem - Virginia

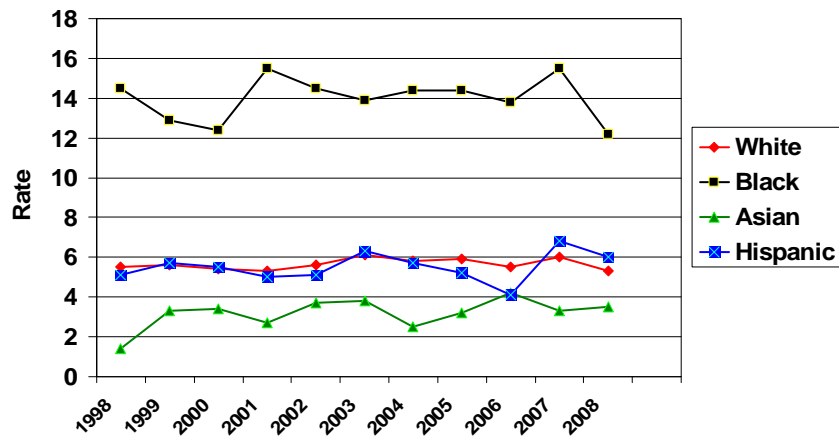

2

- Only ranks within the **top 30 states** for protecting the lives of infants
- Infant mortality rate ranked **18th highest** in the nation by the CDC in 2006
- Infant mortality rate **twice as high** for African-Americans
- Virginia's 2008 rate has been reduced to the lowest in State history

Total Infant Mortality Rates Per 1,000 Births in Virginia

Infant Mortality Rates Per 1,000 Births By Race/Ethnicity 1998-2008

Examples of Targeted Interventions

Expansion of the FAMIS MOMs program to 200% of the federal poverty level:

BabyCare Program

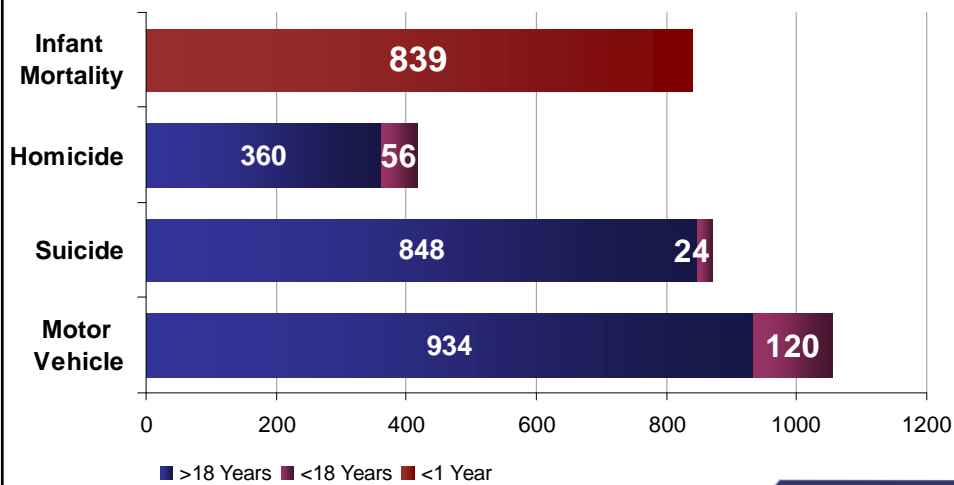

VDH Saving Babies Initiative

Grants to the ten localities with the largest number of infant deaths

Resource Mothers Program

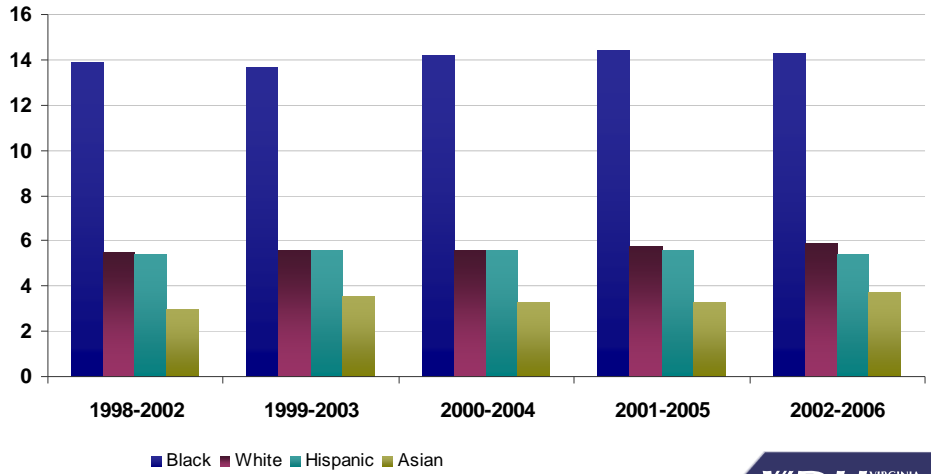

Infant Mortality: Comparative Deaths

Infant Mortality: 5 Year Death Rates by Race/Ethnicity

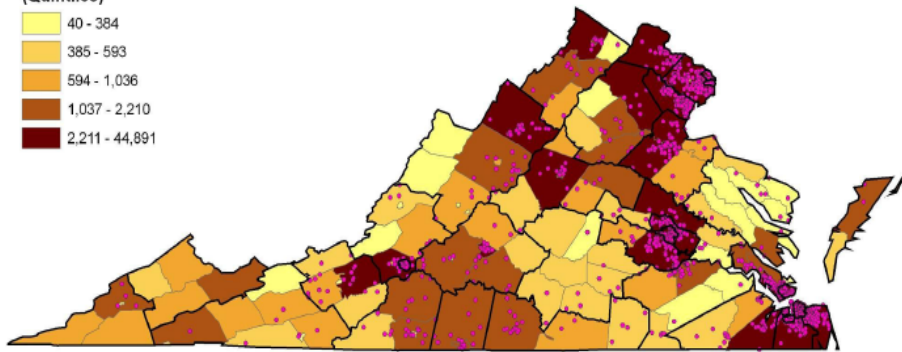

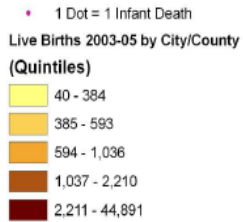

7

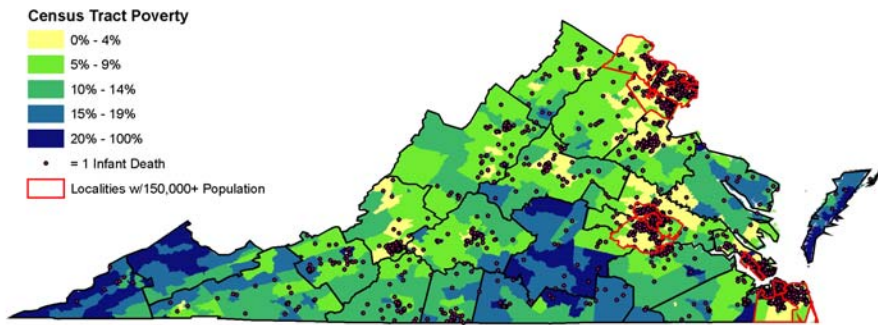

Infant Mortality: By Geography

8

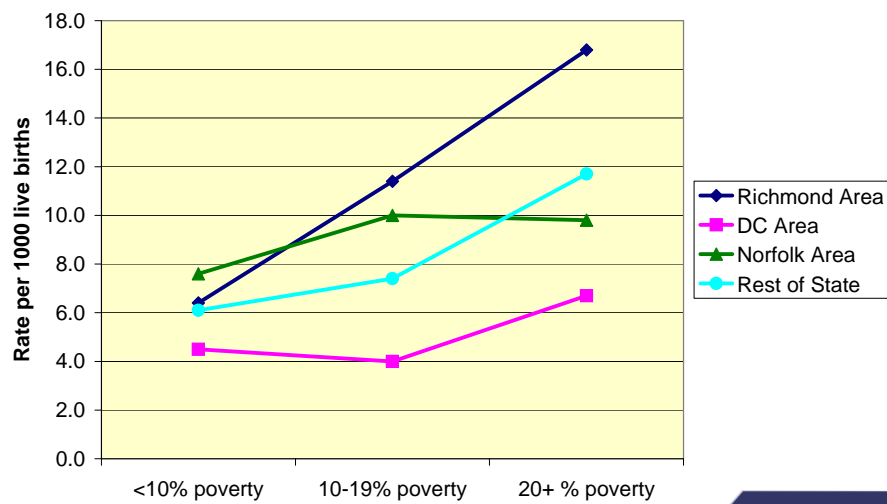

Infant Deaths 2003-05 - VA residents by number of live births

Infant Deaths 2003-05, Virginia Residents, by Tract-Level Poverty

Infant Mortality Rate (per 1000) by Census Tract Poverty Level and Region of VA, 2003-2005

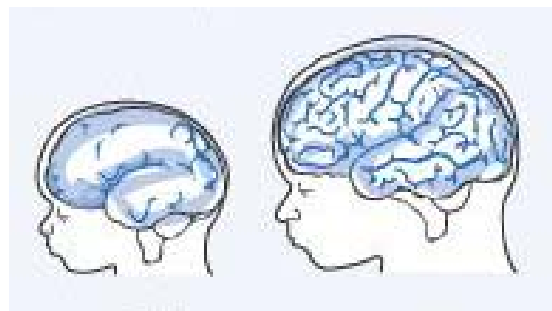

Infant Mortality: Top Causes 2007

11

1. Prematurity
2. Birth defects
3. SIDS
4. Complications of pregnancy
- 5-7. Miscellaneous conditions
8. Accidents
9. Respiratory distress

Prematurity and Late Preterm Births
