

# Review of CSB Child & Adolescent Services

## Presented to Joint Commission on Health Care Behavioral Health Subcommittee

James W. Stewart, III - Inspector General  
Mental Health, Mental Retardation  
& Substance Abuse Services  
July 29, 2008

1

## Phases I/II – CSB Survey/Site Visits

- Survey of all 40 CSBs - Nov 2007
  - Services provided & structure
  - Staffing & budget
  - Factors that encourage/hinder development of services
- Site visits to 34 CSBs - March/April 2008
  - Interviewed 175 family members/guardians
  - Reviewed 469 case records
  - Interviewed over 1000 CSB direct service staff & supervisors

2

## Phase III – Survey of Stakeholders

- Invited 1,500 CSA CPMT and FAPT members to respond – DSS, Schools, Juvenile Justice, Health, family members
- 520 completed the survey
- Questions survey focused on:
  - Views of CSB as MH provider & as CSA partner
  - Community service needs and gaps
  - Priority services to reduce/prevent residential placements

3

## Number C/A Served Statewide FY2007 - All Disabilities

	<b>MH</b>	<b>SA</b>	<b>ID</b>	<b>Total</b>
<b>Number Served</b>	29,357	7,841	4,891	42,089
<b>% of VA 0-17 Population 1,863,274</b>	1.6%	.5%	.3%	2.2%

4

## Total C/A Budget Statewide FY2007 All Disabilities (In Millions)

	<b>MH</b>	<b>SA</b>	<b>ID</b>	<b>Total</b>
<b>Budget</b>	\$91.07	\$14.99	\$12.96	\$119.02
<b>% by Disability</b>	76.5%	12.6%	10.9%	

5

## Finding – Wide Variation in Service Availability

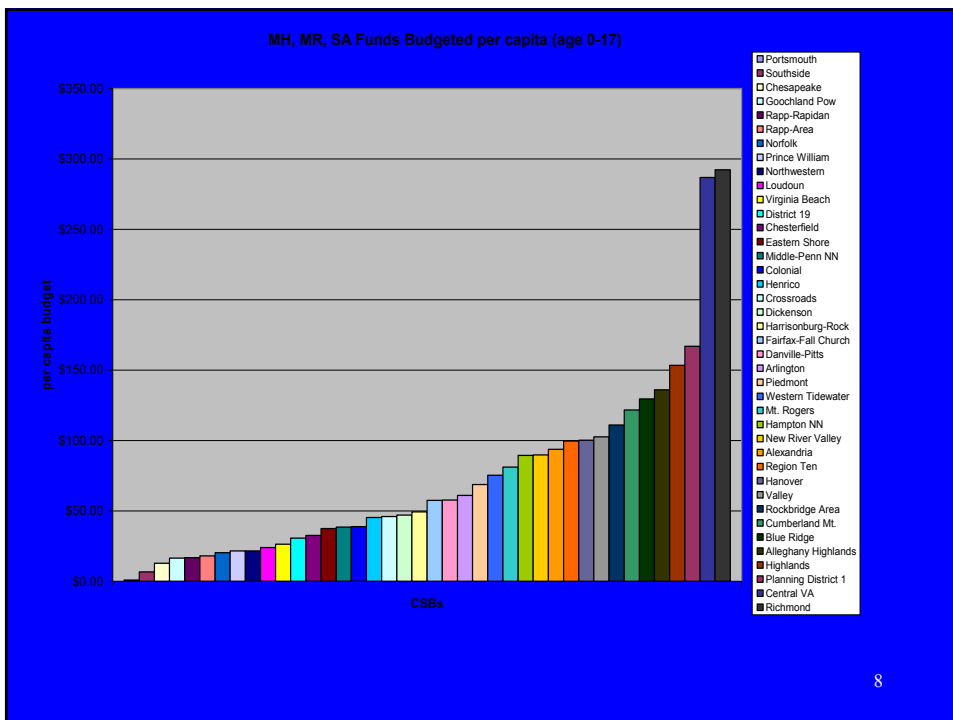

Families seeking services for children and adolescents with MH, SA or ID service needs face enormous differences in service availability depending on where they live. Whether measured by expenditures, staffing, or percentage of child population served, the availability of services for children and adolescents offered by CSBs varies widely among communities.

6

## Total C/A Budgeted/Capita by CSB 2007 - All Disabilities

Highest 5 CSBs		Lowest 5 CSBs	
1 Richmond	\$292.30	36 Rapp-Rap	\$16.80
2 Central VA	\$286.84	37 Goo Pow	\$16.52
3 PD 1	\$166.90	38 Chesapeake	\$12.88
4 Highlands	\$153.36	39 Southside	\$6.72
5 Allega High	\$136.05	40 Portsmouth	\$0.96
Midpoint - \$53.45			

7

## Funding for MH Services

- MH budgets range from \$25,000 to \$12,821,615
- Per capita MH funding based on child population in catchment area:
  - Highest \$258.36 per child
  - Lowest \$0.96 per child
  - Average \$58.01 per child
  - Median \$37.26 per child

9

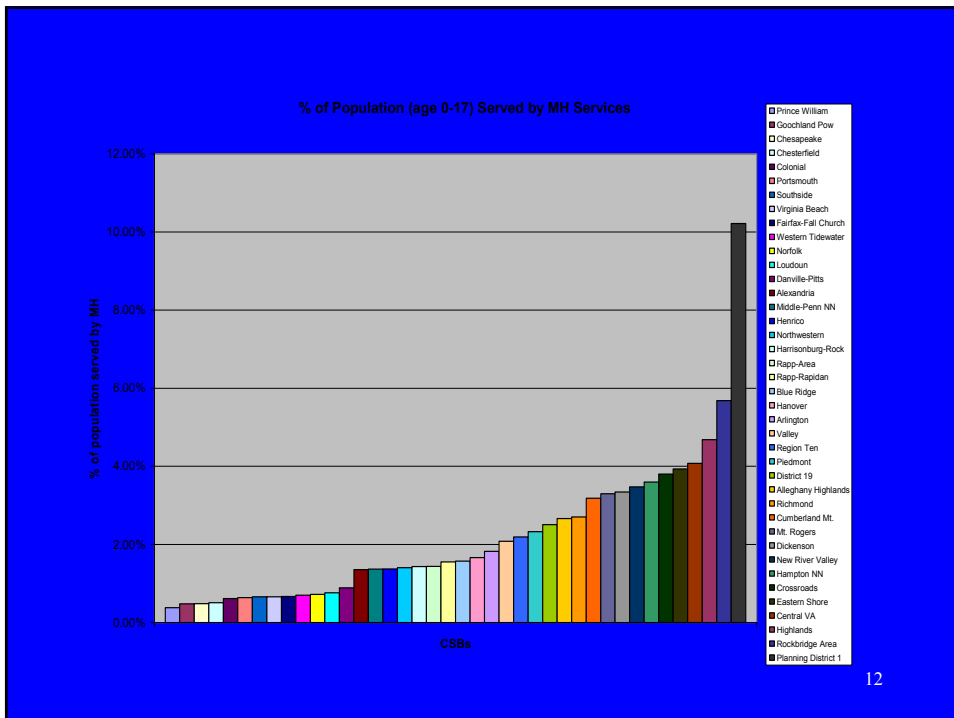

## Staffing for MH Services

- 1,342 FTE staff in MH statewide
- Ranges from 1.5 to 223 staff per CSB
- Staff to community population ratios:
  - Highest 1 to 237 child population
  - Lowest 1 to 15,380 child population
  - Average 1 to 3,038 child population
  - Median 1 to 1,997 child population

10

# Number Served by MH Services

- Number served ranges from 48 to 3,094
- Service penetration in community:
  - Highest 10.21%
  - Lowest 0.38%
  - Average 2.2%
  - Median 1.6%

## Finding – Sources of Funding

State general funds and local funding make up a relatively small portion of total funds for child and adolescent services statewide. CSA funding to CSBs is also a limited source. CSBs that have developed the most extensive systems of services for children and adolescents have done so primarily through the use of Medicaid .

13

## MH Funding % by Source Six Highest Per Capita CSBs

CSB	State	Local	MCD	CSA	Grants
1 Richmond	1.4	0	76.5	12.4	9.7
2 Central VA	1.1	1.0	83.3	6.7	7.2
3 PD 1	2.0	0.8	62.7	0	29.9
4 Highlands	5	2.6	51.1	37.2	4.1
5 Blue Ridge	11.2	0.2	74.5	8.7	4.5
6 Region 10	6.6	0.4	82.4	5.3	5.3
Ave - 6 CSBs	4.5	.8	72	11.7	11.9

## Observations About Sources of Funding for C/A MH Services

- 48% CSBs - over 50% of funds from Medicaid
- 30% CSBs - 10% or less from Medicaid
- 72% CSBs –10% or less from CSA
- 40% CSBs – 10% or less from State GF
- 68% CSBs – 10% or less from local gov't

## Resulting Findings

- No CSB offers a complete array of C/A services with sufficient capacity to meet community needs.
- Many CSBs have very limited service systems and some provide only minimal levels of case mgt and emergency services.
- C/A services at CSBs are full to capacity, resulting on long waiting periods.
- Access to services for uninsured families is extremely limited.

17

## Findings – Service Quality

- Parents/caregivers of children receiving services at CSBs report very high levels of satisfaction.
- Family level of involvement with CSB staff planning & provision of services is quite high.
- Few CSBs offer nationally recognized “evidence-based practices”
- Identification and treatment of co-occurring SA & MH issues is less than optimal.

18

## Family Interviews

	Agree	Disagree
Involved in treatm't planning	88.6%	8.6%
Satisfied with am't of time	91.4%	7.4%
Getting as much help as need	85.2%	14.8%
Child/family benefits fm srvs	93.2%	6.8%
Noticed improvement	85.2%	14.2%
Satisfied with services	96%	3.4%

19

## Findings – CSA/Interagency Coordination

- While majority of community stakeholders rate CSB cooperativeness and communication favorably, a large minority provide negative ratings.
- CSBs are not the provider of choice for community-based CSA-funded MH services in many communities.

20

## Findings – CSA/Interagency Coordination

- Over half the CSBs have developed one or more specific services to help improve the provision of services offered to children in the CSA system.

21

## CSB Services in Support of CSA

- Intensive care coordination 18 (45%)
- Utilization management 14 (35%)
- Provide both services 10 (25%)
- Provide one or both services 22 (55%)

22

## Changes CSBs Think Would Improve CSA System

- Clearer, mandatory role for CSBs in assessing, leading planning & providing case mgt to children in CSA system
- Creation of added CSB services to meet needs of CSA children with state or CSA funds
- Increased oversight, UM for CSA expenditures
- Reduce CSA reliance on residential services & commitment to community-based services
- Expansion of eligibility for CSA services

23

## Findings – CSB Workforce

- CSBs have great difficulty recruiting and retaining qualified staff to provide children's services.
- CSBs have inadequate psychiatric time to meet the needs of the children in their communities. Only 12.5% of CSBs report adequate psychiatric resources. The average wait to see psychiatrist is 37 days. CSBs estimate that 25 FTE psychiatrists are needed statewide.

24

## Stakeholder Interviews - 520

Social Services	145
Public Schools	77
Juvenile/Domestic Relations Court	58
Health Department	34
Private Provider	47
Family Member	12
Other	147

25

## Stakeholder Survey

	Agree	Disagree
I am usually satisfied with results of CSB services	60.7%	37.4%
CSB is usually provider of choice for FAPT/CPMT	62.9%	34.9%
CSB collaborates with my agency in planning for child	64.8%	31.1%
CSB is vigorous & effective partner in our local CSA	62.6%	35%

26

## Stakeholder Survey

	Agree	Disagree
CSB keeps me informed about progress of treatment	48%	37%
CSB involves families in assessment & planning	78.3%	10.9%
CSB MH services have good treatment outcomes	57.3%	35.3%
CSB emergency program is responsive, effective means to keep child in community	52.2%	43%

27

## Stakeholder Survey

	Agree	Disagree
I find that most of children I see with MH needs can be served by the CSB	44%	51%
CSB does good job of meeting needs of children with mental retardation	54.9%	27.9%
CSB does good job of meeting needs of children with substance abuse probs.	39%	42%

28

## What does your CSB do well?

Cooperate, collaborate w/ agencies, improves system

Provides effective/excellent services

Leader/expert on MH issues in community

Provides specialized services to children w/ DD/ID

Targeting services to indigent children/families

Active partner in CSA processes

Substance abuse evaluations & treatment/prevention

29

## What is your biggest criticism of the CSB?

Waiting list. Takes too long to start services.

Do not offer comprehensive range of needed services.

CSB is not collaborative with other agencies

CSB does not provide adequate SA services

Eligibility for services for those without Medicaid, insurance or CSA is very limited.

30

## What service would help prevent residential placement out of community?

Home-based intensive services – wrap around srvs

Substance abuse outpatient services

Residential options in community

Mental health outpatient services

Broader range of assessment and evaluation services

Educational support and treatment for families/parents

Comm-based srvs for sexually acting-out children

31

## Factors Most Help Development of CSB Child/Adol MH Services

- Community requests, needs, support for development of services
- Creation of CSA, support of partner agencies
- Creation & growth of Medicaid funding
- Leadership of our executive director & Child/Adolescent services director

32

## Factors Most Hindering Development of CSB Child/Adol MH Services

- Lack of funding flexibility
- Difficulty recruiting and retaining qualified child staff
- Transportation for families and staff
- Agency structure limits priority for children
- Difficulty finding and attracting psychiatrists

33

## What State Should do to Develop Child MH Services

- DMHMRSAS provide training
- Expand types of services eligible for reimbursement (Medicaid) – non-SED, at risk, prevention, non-mandated
- DMHMRSAS reflect priority in all areas/activities/policies
- Create mandate for local child MH services, school-based, etc.
- Assist communities with providing psychiatric services, work with communities
